

NURSING PERIODICALS

08-07-2008

The following is a list of Nursing periodicals available in Hightower Library in paper (Bound or Circulation), Microfilm or in one of the GALILEO databases: Journals @ Ovid Nursing Collection, CINAHL with Full Text, ProQuest Nursing & Allied Health Source and Academic Search Complete. A date period for a periodical currently received in one of the seven formats will look like one of the following two: 1 (1978) – to date or 2/1/2002 – to date. It must have a dash after the year followed by the words to date to indicate that the library is currently taking the title. If the library is no longer taking a title, the date period will look one of the following three: 17 (1996) – 22 (2001), 10 (1981) or 1/1/1999 - 10/31/2001. If it says MICROFILM ONLY that means that the current year will not be in until the following year. For example, the 2008 issues of Nursing Times will not be in until April or May 2009.
